

Speed-Limit Change Update

Speed Limit Changes for Mountain View, Woodside, and Spencer Heights Neighborhoods

Attention Residents of Mountain View, Woodside, and Spencer Heights:

The Town of Ranlo Public Works Department and Police Department, working in cooperation with the Homeowners Associations (HOAs) of each neighborhood, have been addressing concerns regarding posted speed limits within these communities.

Following productive discussions and approval by the Town of Ranlo Board of Commissioners, **the speed limit will be reduced to 15 MPH throughout the Mountain View, Woodside, and Spencer Heights neighborhoods.**

The Town of Ranlo Public Works crews have begun marking proposed locations for the new speed limit signs with white paint in preparation for NC 811 utility locates. Residents may notice these markings in yards and along roadways as crews prepare for sign installation.

Important Exception – Mitchem Road:

Mitchem Road, from Spencer Mountain Road to Sapphire Drive, will remain posted at **35 MPH**. This section of roadway is maintained by the North Carolina Department of Transportation (NCDOT), not the Town of Ranlo, and is therefore not included in the Town's speed limit reduction.

The Town of Ranlo would like to thank the neighborhood HOAs, residents, Police Department, Public Works staff, and Board of Commissioners for their cooperation and commitment to improving traffic safety throughout our community.

We ask all motorists to remain alert, observe the posted speed limits, and help keep our neighborhoods safe for residents, pedestrians, and children.

Town of Ranlo Public Works Department
